PROFESSIONAL SUMMARY

Full Stack Web Developer with hands-on experience building responsive, production-grade frontend interfaces during a Web Development Internship at Biosofttech Solutions Pvt. Ltd. Proficient in React.js, JavaScript (ES6+), HTML5, CSS3, and Tailwind CSS, with working knowledge of Node.js, Express.js, and MongoDB for full-stack MERN development. Experienced with REST APIs, JWT authentication, and third-party integrations including Razorpay, Google Maps API, and Socket.io. Strong foundation in Data Structures and Algorithms with consistent practice on LeetCode and GeeksforGeeks.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Responsive Web Design

Backend: Node.js, Express.js, REST API Development

Database: MongoDB

Tools & Platforms: Git, GitHub, Postman, Socket.io, Razorpay API, Google Maps API

Concepts: REST APIs, JWT Authentication, OAuth (Google Login), Data Structures & Algorithms, Responsive Design

PROFESSIONAL EXPERIENCE

Web Development Intern

Mar 2026 - Jun 2026

Biosofttech Solutions Pvt. Ltd.

- Developed and customized 12+ responsive landing pages using React.js, HTML5, CSS3, and Tailwind CSS, improving page load consistency across devices.
- Built reusable UI components with a mobile-first responsive design approach, reducing duplicate code across multiple client pages.
- Contributed to a complete frontend business website from wireframe to deployment, collaborating directly with design and backend teams.
- Improved site performance and cross-browser compatibility by debugging layout and rendering issues across Chrome, Firefox, and Safari.
- Collaborated using Git and GitHub for version control, branching, and code review in a team environment.

PROJECTS

Food Delivery Website - MERN Stack

github.com/official1saurabh-ship-it

- Built a full-stack food delivery platform with role-based dashboards for customers, restaurant owners, and delivery partners.
- Implemented secure JWT authentication, Google OAuth login, and OTP-based password reset for user account security.
- Integrated Razorpay for payment processing, Google Maps API for live order tracking, and Socket.io for real-time order status updates.

ConvoX - Real-Time Messaging Application

- Developed a real-time chat application using React, Node.js, Express.js, MongoDB, and Socket.io, supporting instant message delivery between users.

YouTube Clone

- Built a responsive video streaming application integrated with the YouTube Data API, replicating core search and playback functionality.

EDUCATION

B.Tech, Computer Science & Engineering - Noida Institute of Engineering and Technology

2021 - 2025

Class XII (Science), Divine Public School • Class X, St. Therese's School

2017 - 2020
